one of the founders of the pop art movement tom wesselmann has created art in a variety of genres and media from his early work in painting collage and assemblage to his well known series of pop paintings titled smokers and bedroom paintings among others and

finally his most recent work consisting of laser cut aluminum and steel drawings often painted in color this volume traces wesselmann's development and aspirations from his first collages of nudes in tight patterned interiors reminiscent of vuillard and matisse to his recent explorations of novel ways of translating spontaneous doodles into monumental and beautiful metal drawings and paintings wesselmann's school experiences are discussed as well as his reactions to abstract expressionism and the influence of other artists especially de kooning

and the book does so right up through the 1990s to the start of the third millennium ranging across a broad spectrum of visual arts from painting and sculpture to conceptual forms installation video and architecture it is a narrative also enriched by its borrowings from africa asia and pre columbian america as well as bound up with comparable breakthroughs in science and technology politics and economics philosophy and psychology jacket

tony rosenthal is probably best known for his landmark fifteen foot high corten cube poised on its tip which stands permanently on astor place in downtown manhattan yet at the time it was installed in 1967 and soon after accepted as the first permanent contemporary outdoor public sculpture by the city of new york he had received many other public commissions and had also been producing smaller scale studio sculpture of distinction for nearly two decades first in los angeles and then in new york since the late fifties he has been experimenting in a rather wide range of abstraction from monolithic structures to more open geometric forms often with elegant surface detailing concerned with effects of light and movement notable among rosenthal's important commissions has been cranbrook in gathering a maze like structural environment set on the campus of the michigan design center he considers the work his homage to charles and ray eames eero saarinen and other modernist giants of architecture and design who had been fellows at the academy with rosenthal another remarkable work that deeply stirred public attention recently is his moving holocaust memorial made for the jewish community center of greater buffalo it combines a rather austere ten foot high stainless steel structure and specific texts and imagery on steel pages memorializing and personalizing the loss of the six million since 1997 rosenthal has embarked on a more personal method of creating abstract yet also at times suggestively figural sculpture consisting of small bent steel bars shaped by hand he has also linked these elements together and combined them almost haphazardly creating a rich accumulation of powerfully interacting formal units

undaunted by his advanced years rosenthal seems to be just getting started in his recent work and testing new and challenging directions with vigor and concision s h the book contains 69 color plates an extensive chronology a list of the sculptor s major commissions and public sculptures and a bibliography

the authors focus on the religious and theological significance of grotesque imagery in art and literature exploring the religious meaning of the grotesque and its importance as a subject for theological inquiry
